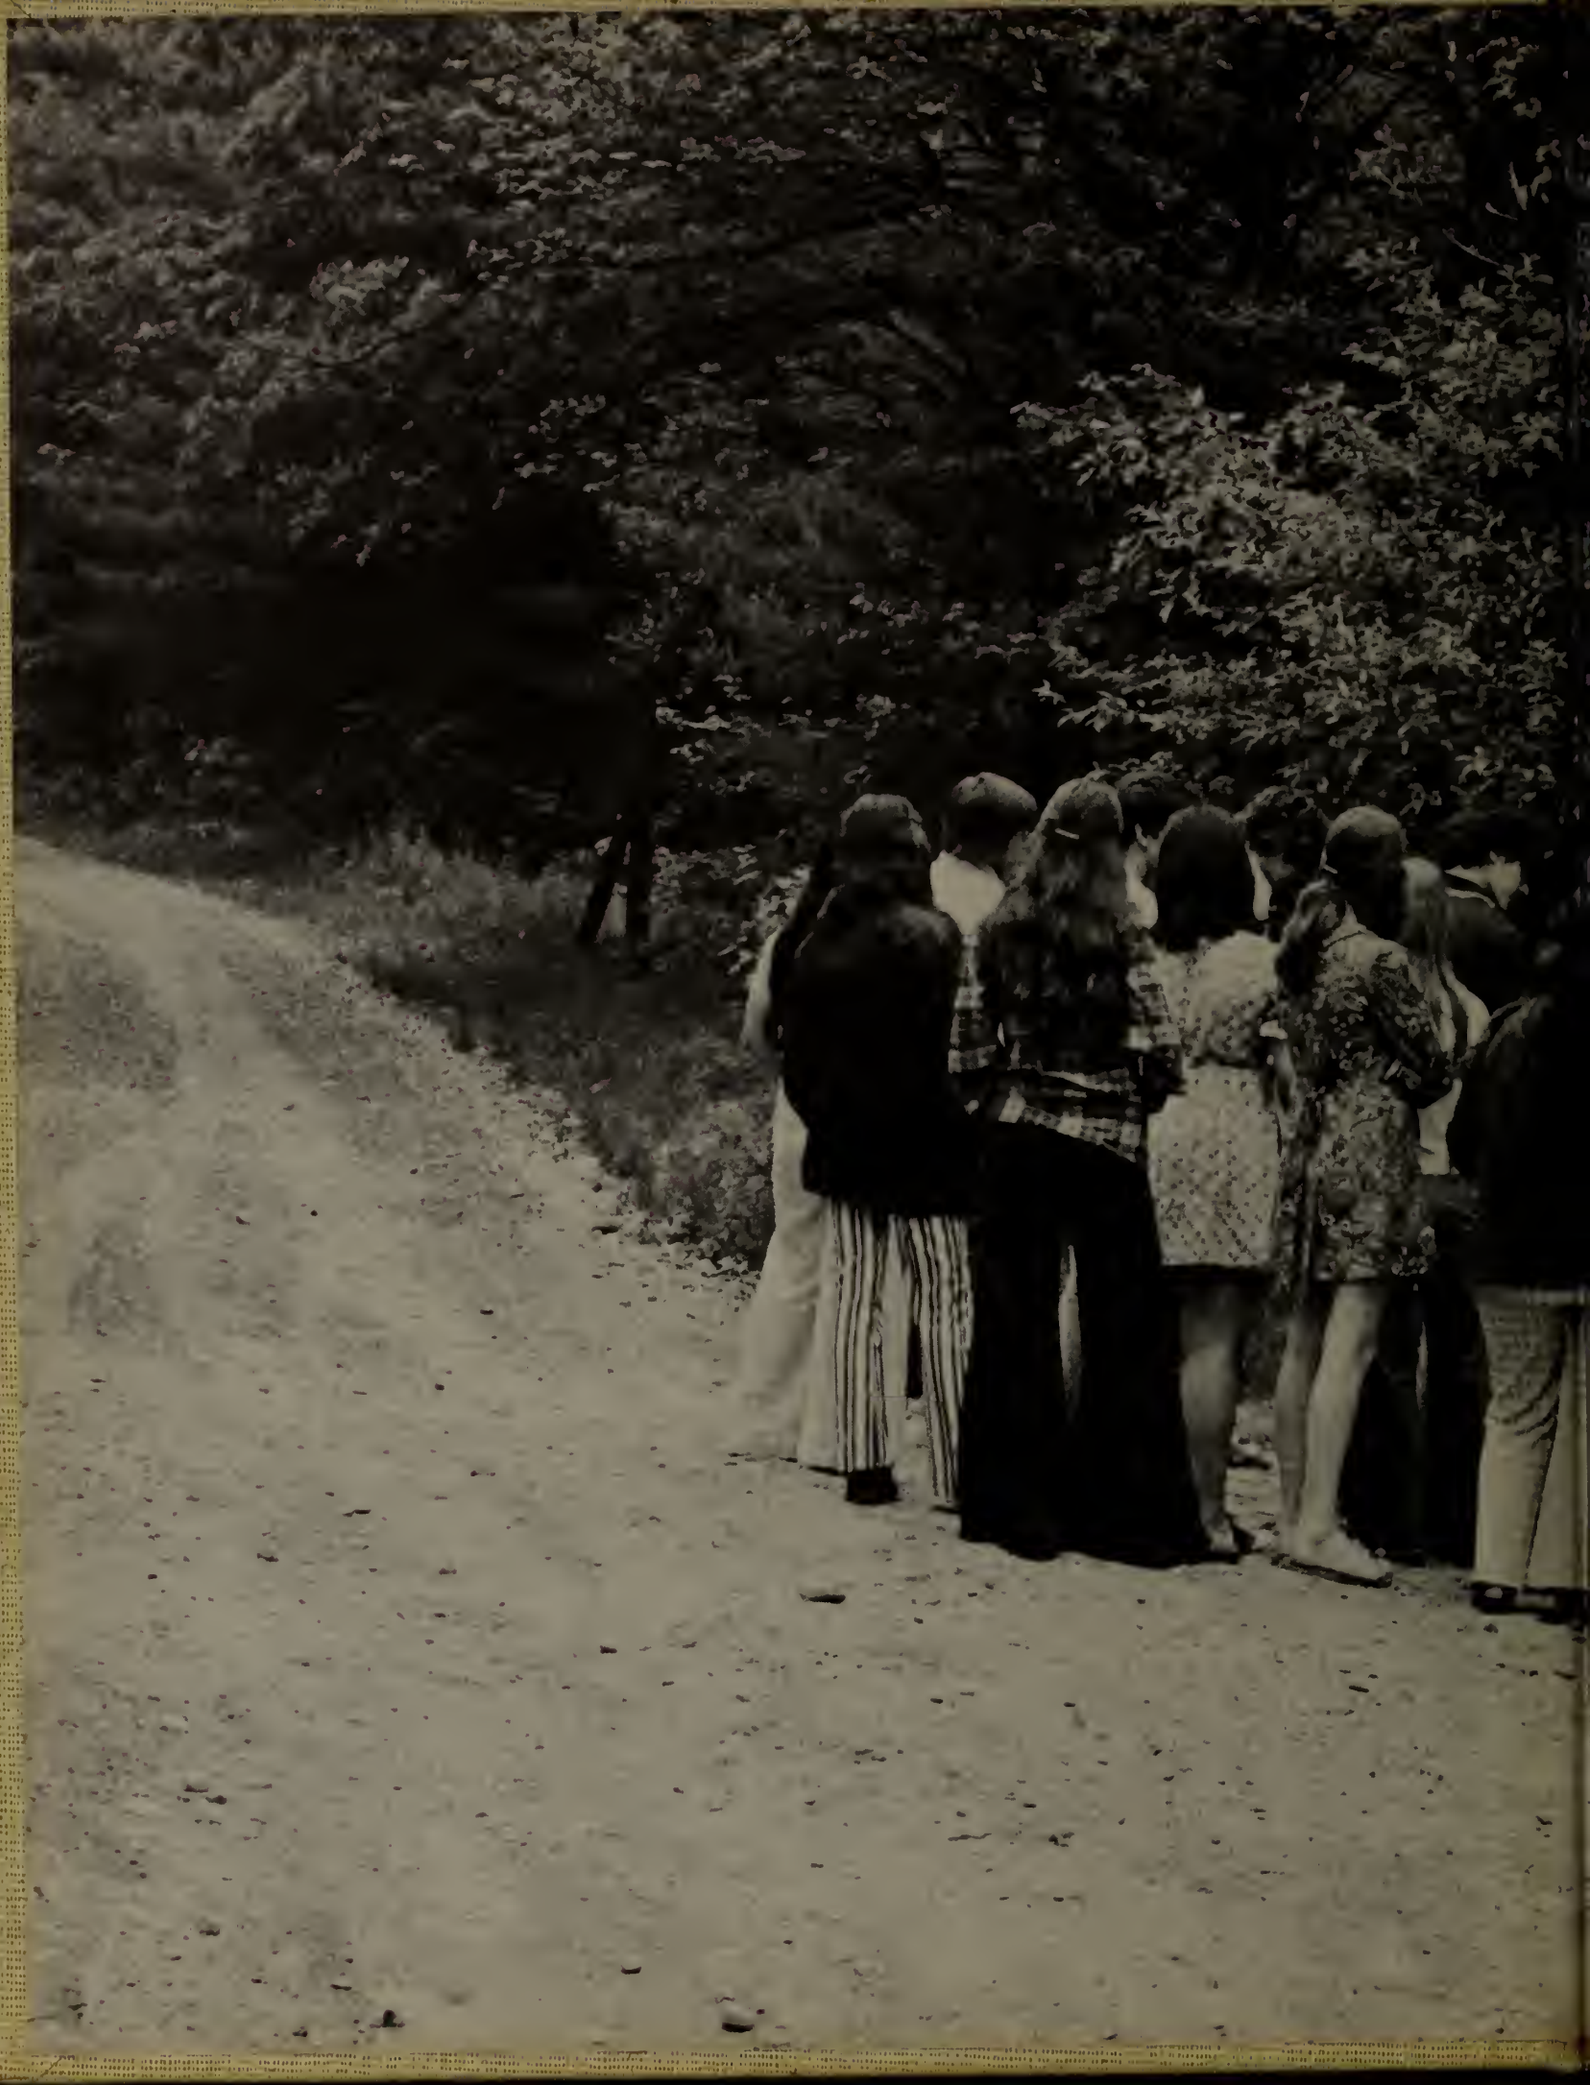
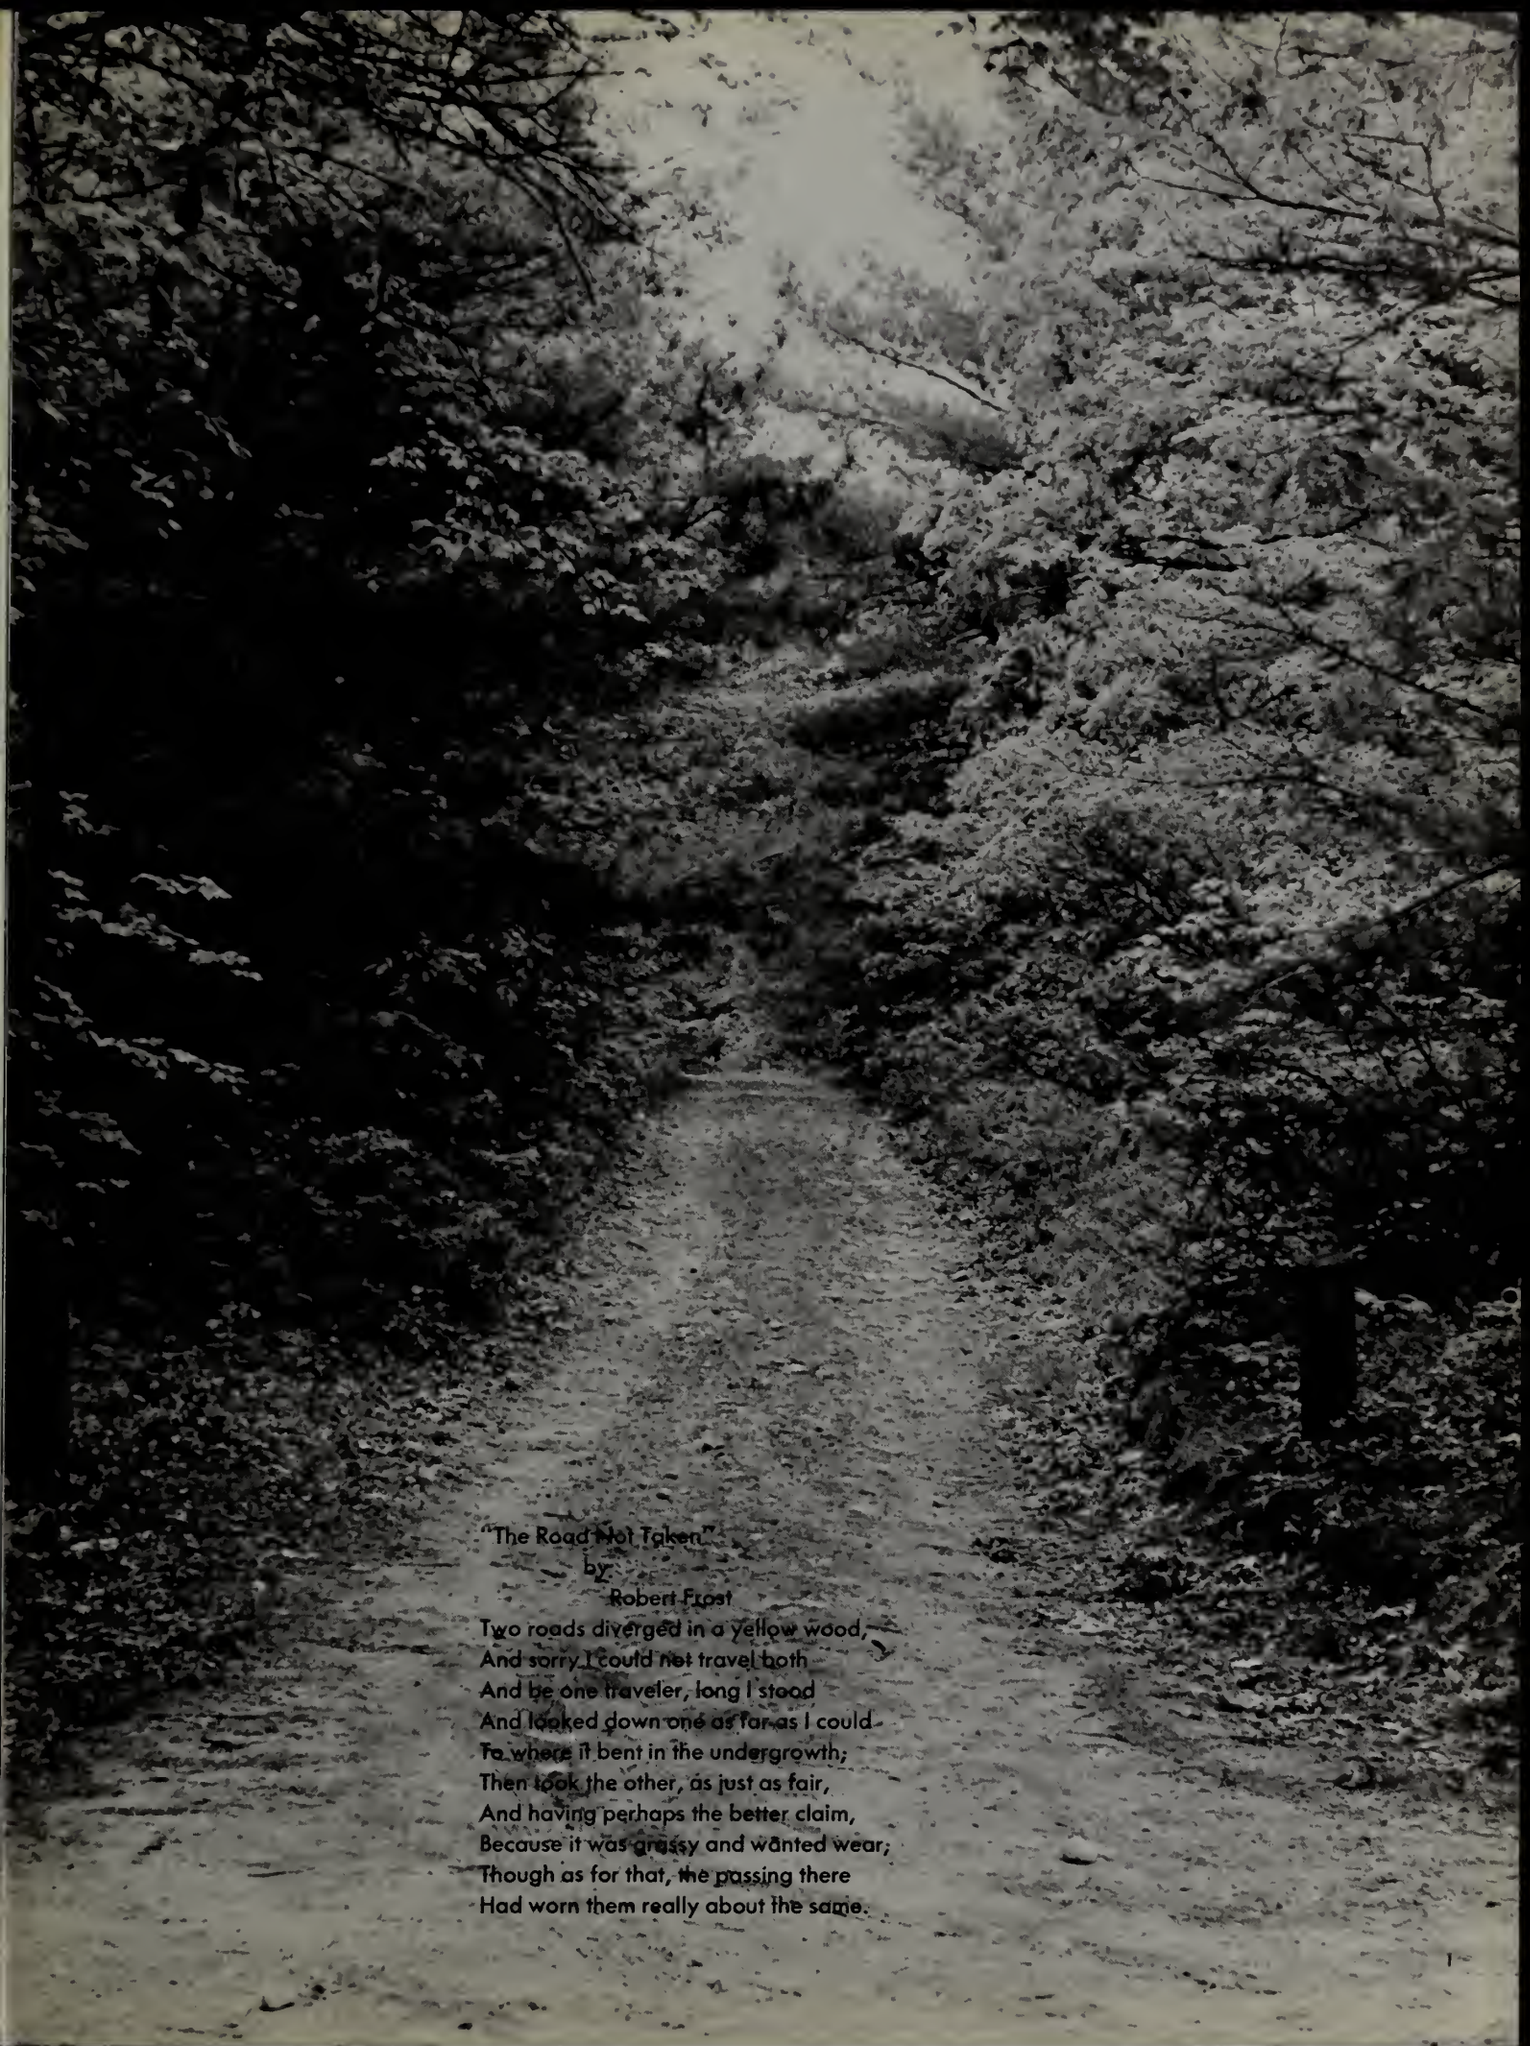
WESTBOROUGH HIGH

CLASS OF 74





"The Road Not Taken"
by
Robert Frost

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;
Then took the other, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear;
Though as for that, the passing there
Had worn them really about the same.

Between the silence of the mountains
and the crashing of the sea
There lies a land I once lived in
But in the grey of the morning
my mind becomes confused
Between the dead and the sleeping
and the road that I must choose

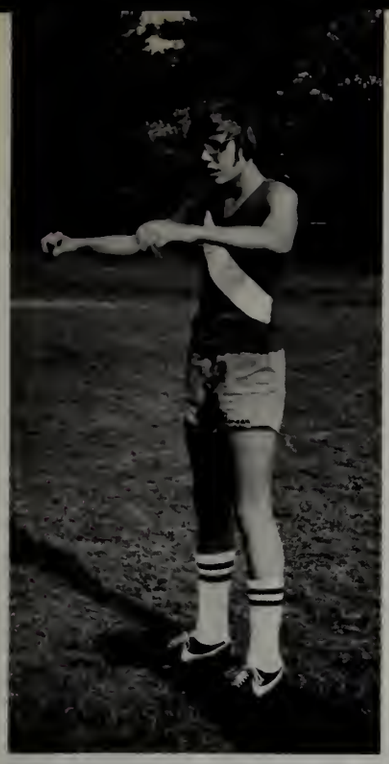
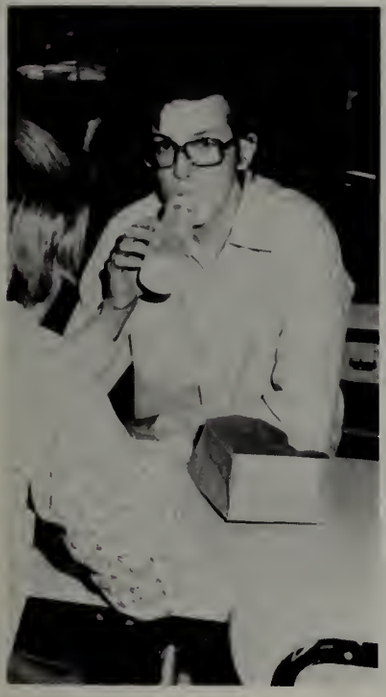
Haiku Ambulance: A piece of green lettuce fell off the wooden salad bowl. So what?

Richard Brautigan



Just think, I'll have my license in a week!

One small step for Tam, one great leap for Westboro High.



The Memoirs of Jesse James
I remember all those thousands of hours that I spent in grade school watching the clock waiting for recess or lunch or to go home.
Waiting: for anything but school.
My teachers could have easily ridden with Jesse James for all the time they stole from me.

Richard Brautigan

In Memory of

There are places I'll
remember all my life.
Though some have changed
some forever, not for
better some have gone
some remain.
All these places had
their moments with
lovers and friends
I still recall.
Some are dead and some
are living, in my life
I've loved them all.

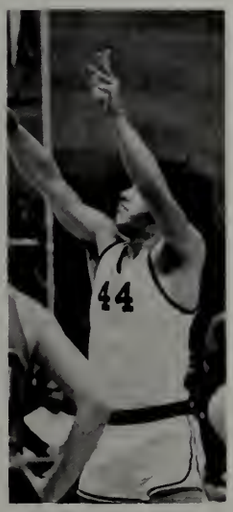
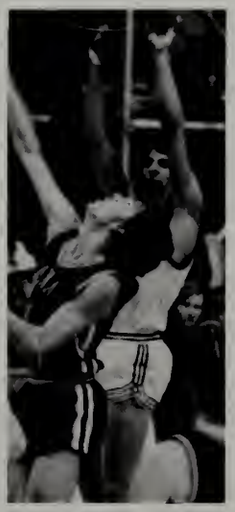
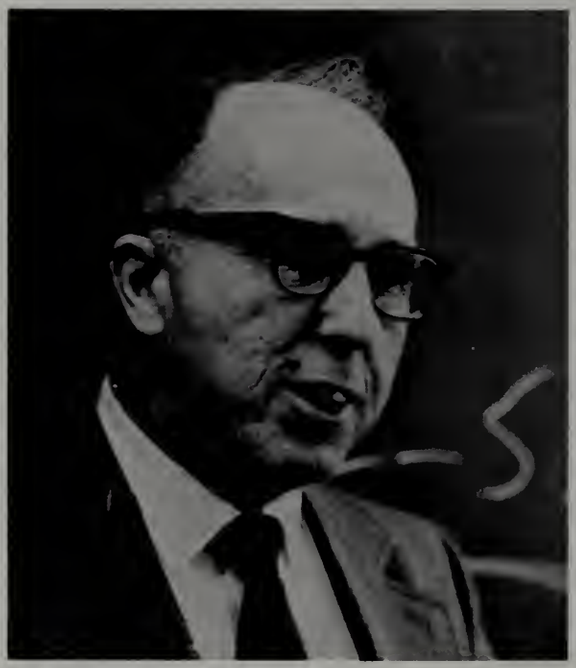
We've got to stop meeting like this.

Peacock





Dedication to:



Mr. Ryan

We the class of 1974 dedicate our yearbook to Mr. Ryan for his many years of teaching in the Business Education Department. Many people, however, don't realize another important and necessary job that Mr. Ryan spends countless hours on; this being bookkeeper for all the clubs in school. For example Mr. Ryan keeps track of the Student Council and Class Organizations accounts.

To observe Mr. Ryan we rarely see anything other than a laughing smile on his face. He always has time for his students out of class as well as in. It is for things such as these that Mr. Ryan will always be remembered.

Tamrat Shitaye

Sometimes, not often enough
we reflect upon the good things.
And these thoughts always center around
those we love
and we think about those people
who mean so much to us.
And for so many years
have made us so very happy
It's then we count the times we forgot
to say thank-you
And just how much we love them.

The Carpenters

Mr. Vail

To the Class of 1974: .

Congratulations are due to all of you on having successfully come to the threshold of Graduation. Congratulations, too, to the Year Book staff on giving all of us such a fine product. It has been wisely stated that the only place where success comes before work is in a dictionary. The work of all members of the Class of '74 has indeed been most successful; you may all be proud of your achievements.

On behalf of the entire faculty and staff, I would like to wish each of you continued success in all of your future endeavors.

J. Robert Vail

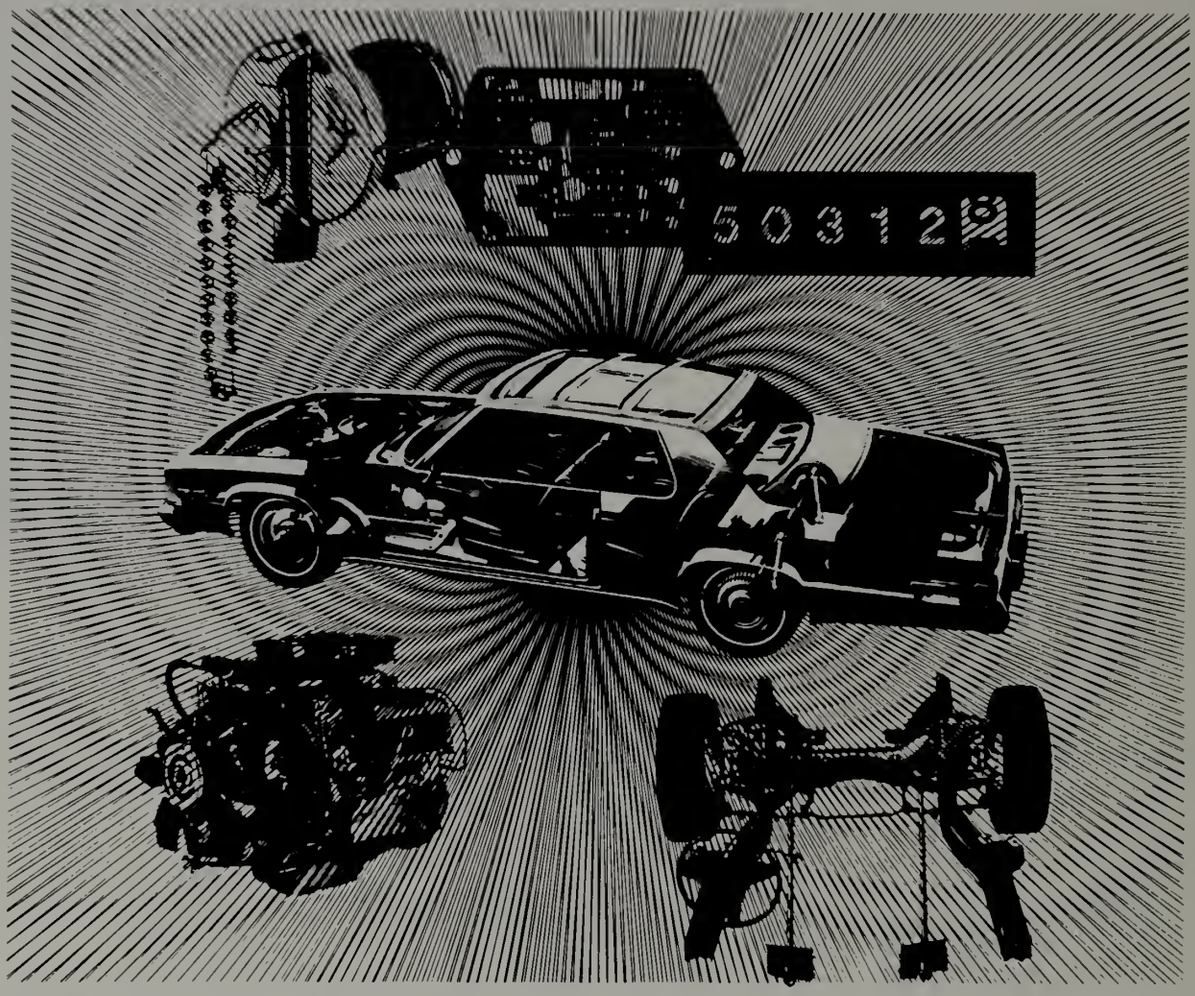
EXTRA CARE IN ENGINEERING...IT MAKES A DIFFERENCE.

Chrysler Corporation offers 7 important engineering differences that could help you choose your next car.



There are important engineering differences in every Chrysler Corporation car made in this country. Differences that are basic to the way we build our cars. You should know about them before you buy your next car.

Difference #1: Electronic Engine Testing. Every one of our engine plants in this country uses Chrysler-engineered Electronic Engine Function Testers to help keep substandard engines out of your car.

Difference #2: Use of Electronics. Electronic Ignition and Voltage Regulator are standard on all our American-made cars. The Electronic Digital Clock and Security Alarm System are available on many.

Difference #3: Reduced Maintenance. Like other carmakers, we've worked to improve service. We've also reduced, even eliminated, service in certain areas. For example, Electronic Ignition has no points or condenser to replace.

Difference #4: TorqueFlite Transmission. It's rugged and dependable. With no recommended maintenance under normal driving conditions. TorqueFlite is standard on all our full-size cars, and it's available on all of our cars.

Difference #5: Electronic Ignition. Standard. It delivers up to 35% more starting voltage than conventional systems; works as good as new even after 50,000 miles.

Difference #6: Torsion-Bar Suspension. Our Torsion-Bar Suspension is a different way of obtaining a comfortable ride and is easily adjustable for height.

Difference #7: Unibody Construction. The body panels and structural members are joined by over 4,000 welds for strength and durability.

Compare Chrysler Corporation's engineering differences. See your Dodge or Chrysler-Plymouth dealer before you choose your next car.

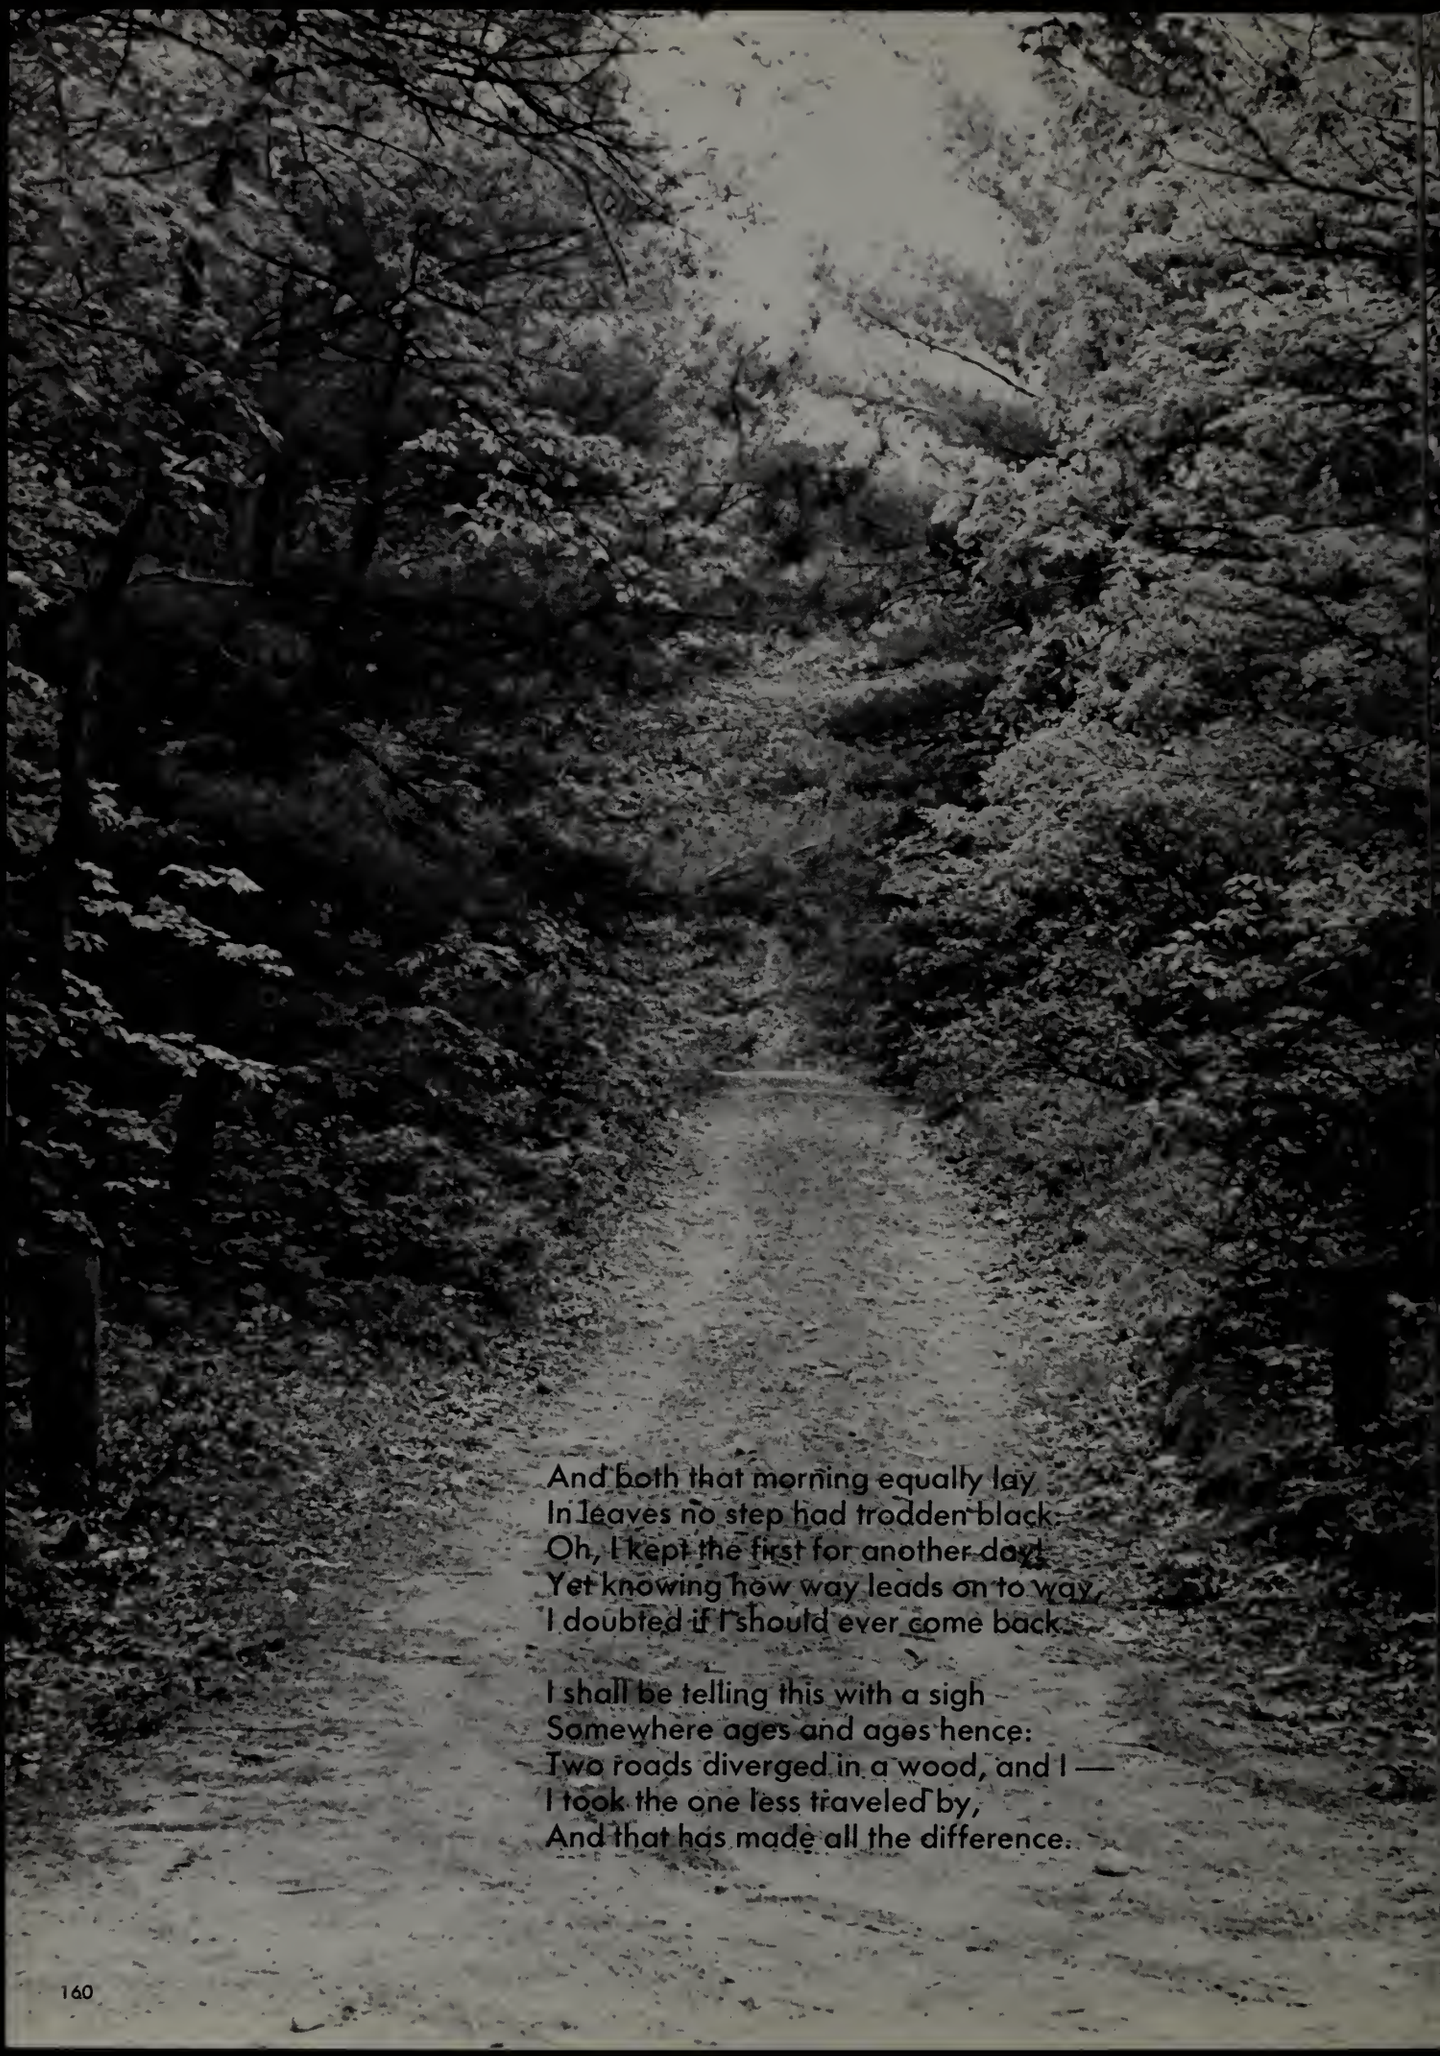
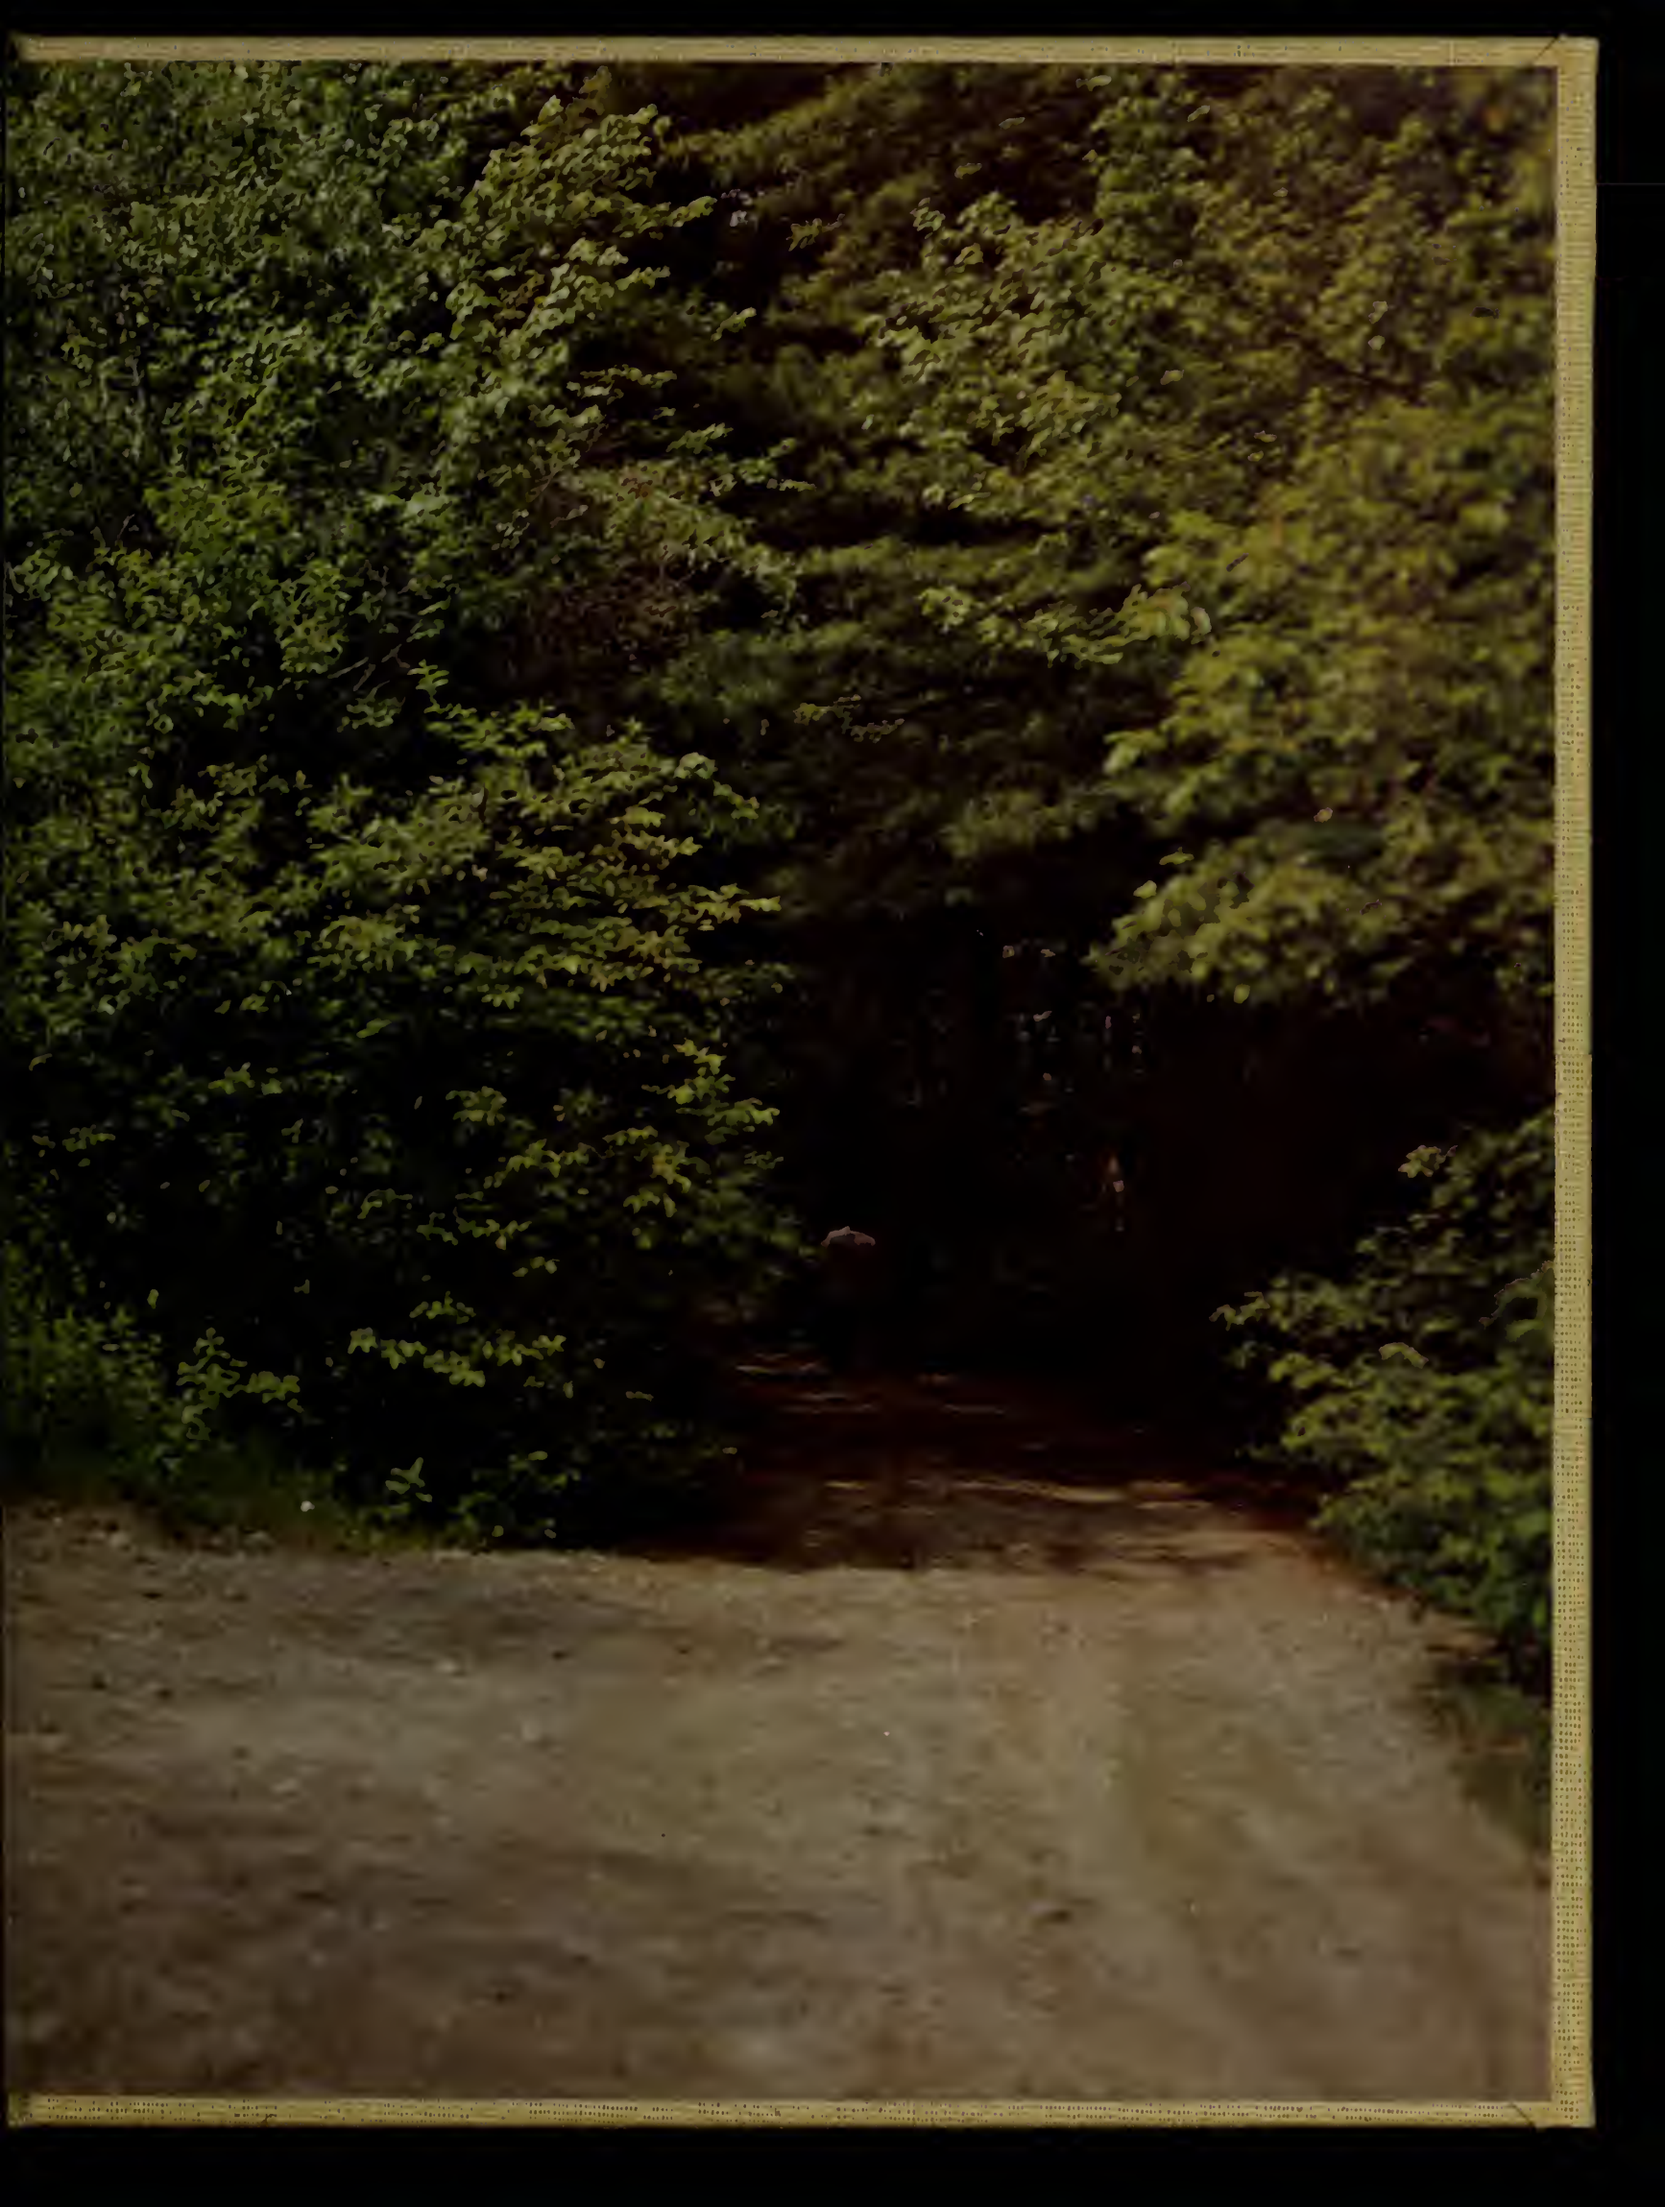
HAYES LEATHER GOODS



And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day!
Yet knowing how way leads on to way,
I doubted if I should ever come back.


I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I —
I took the one less traveled by,
And that has made all the difference.
